DETAILED ACTION

Claims 1, 3-11, 13-15 and 17-21 are under consideration in this application.

Election/Restriction

The restriction requirement is deemed sound and proper and is hereby maintained.

It is noted that applicants have not amended the claims directed solely to the elected compounds. As set forth in the restriction requirement, applicants' claims encompass all heterocyclic chemistry. The staggering arrangement of possibilities does not even permit classification of the claimed subject matter. Let alone be searched.

It is too burdensome for the examiner to search all of the previously noted searches in their respective, completely divergent, areas for the non-elected subject matter, as well, in the limited time provided to search one invention.

This application has been examined readable on the elected compound wherein X^1 is NR^5 , Y^1 is CO, A is formula ii, Z^1, R^5 , W_2 , Z^3 , R_{26} and R_{28} represent non-heterocyclic groups, and R^1 , R^4 , R_{22} – R_{24} , R_{27} and W_1 as set forth in claim 1, exclusively. All additional heterocycles pertain to non-elected subject matter.

Allowable Subject Matter

Claim 1 is objected to as containing non elected subject matter. The objection may be overcome by limiting the claim to the subject matter indicated as being examinable, supra. A claim so limited would appear allowable.

Art Unit: 1625

Claims 3-11, 13-15 and 17-21 presented in independent form or made dependent on an allowable claim, would appear allowable, otherwise it is objected to as being dependent on a non allowed claim.
